Data Access

Access the CLIMAPROOF datasets:

<https://data.ccca.ac.at/group/climaproof>

Available data:

- Bias corrected model data
- RegridDED original model data (for the ICC-OBS Tool)
- Observational data (used for bias correction)
- Topography data of the common grid (0.1°)
- High resolution topography data (0.01°) for downscaling

Data Access

Hands-on:

- Filter the data
- Explore the metadata of datasets
- Preview data (visualization)
- Create subset of data
- Download data

Need help? Click on the question marks that you can find on the CCCA Data server to get a short online documentation

The screenshot displays the user interface of the CCCA Data server. At the top, there is a search bar labeled 'Search and Filter' with a magnifying glass icon and a 'Clear all' link. Below the search bar is a 'Filter by location' section featuring a map of Europe with labels for countries like Austria, Italy, Poland, Romania, and Bulgaria. A 'Filter by year' section includes a calendar icon and a date range selector. The 'Further Filters' section contains a list of dropdown menus for 'Keywords', 'Authors', 'Organizations', 'Licenses', 'Groups', 'Frequency', 'Model', 'Variables', and 'Formats'. Each dropdown menu has a downward-pointing arrow.
